Subject index

Key: c = correspondence; e = editorial; r = review article; S = supplement

A

Abstracts
  British Intensive Care Society, London, Oct. 21, 1989 A141–152; Southampton, April 20/21, 1990 A477–486
  5th European Congress of Intensive Care Medicine, Amsterdam, June 5–8, 1990 S1–132
Acidosis
  metabolic
    due to formalin ingestion 212
Acute renal failure
  adverse effects of prostacyclin prior to dialysis 431
  clearance of ceftriaxone in 448
  extracorporeal treatment 282c
  following collective intoxication by *Cortinarius orellanus* 506
  noninvasive monitoring of renal blood flow 153
  peritoneal dialysis for, 281c
  with raised intraabdominal pressure 285e, 328
Acute respiratory failure
  adverse effects of prostacyclin 431
  PO.1/PiMax for assessing respiratory capacity 175
  post-operative, acute eosinophilic pneumonia 408
  ventilatory management of ARDS 219r
Adult respiratory distress syndrome (ARDS)
  and pulmonary hypertension, effect of prostacyclin on right ventricular function 227
  can ventilatory management affect the outcome? 219r
  low mortality with permissive hypercapnia 372
  pulmonary capillary pressure after *E. coli* bacteremia in pigs 500
  target blood gases 349e
Aerorachia
  aerorachia 275
AIDS
  HIV-associated tuberculosis 487e
Airway pressure
  recording in patients with tracheostomy 384
Alveolar hypoventilation
  diaphragmatic pacing for idiopathic 469
Alveolar pressure
  during mechanical ventilation 73e
Amniotic fluid embolization
  transient left heart failure 269
Amrinone
  after cardiac surgery in children 85
Antibiotics
  clearance of ceftriaxone in acute renal failure 448
  difficult to treat infections S239
  dosage schedules and treatment of infection S229
  effect of SDD on antibiotic resistance S224
  gentamicin volume of distribution in sepsis 303
  pharmacokinetics of, in critically ill patients S235
  resistance to, myths and facts S205
Antibodies
  serum IgG, to *Pseudomonas aeruginosa* 281c
Antithrombin III
  treatment for acute deficiencies of protein C and S during purpura fulminans 121
Autonomic dysfunction
  in tetanus, effect of magnesium sulfate and clonidine 75

B

Barbiturates
  thiopental and cat skeletal muscle vessels resistance 399
Blood flow
  during CPR 11r
  regional, in supply-dependant states S169
Blood products
  plasma fibronectin concentrations in 41
Broncho-pleural fistulae
  maintenance of PEEP for critical oxygenation during transport 413
Bronchodilators
  effects of inhaled fenoterol on respiratory mechanics in COPD patients during MV 108

C

C reactive protein
  and complement activation, cardiac surgery in children 128
Calcium
  dopamine dependance in hypocalcemic patients 463
Caval filter
  failure of Günther filter to prevent recurrence of pulmonary embolism 457
Capillary leak
  compartment syndrome secondary to 332
Cardiac arrest
  prognosis after out-of-hospital 378
Cardiac output
  effect on measurement of EVLW by thermal-dye technique 115
  modified Fick method and thermodilution during MV 248
  oxygen supply, demand, and uptake relationships S145
  strategy for thermodilution measurements during MV 422
  meaning of measurements 415e
Cardiac surgery
  C-reactive protein, complement activation in children 128
  hemodynamic effects of amrinone in children 85
  pharmokinetics of enoximone 54
  short term sedation with midazolam vs propofol 312
Cardiopulmonary resuscitation (CPR)
  after hypothermia by extracorporeal circulation 69
  pathophysiology (I) 11r
  survival after near-drowning 336
  techniques (II) 16r
Catecholamines
  catabolic hormones and nitrogen sparing at elevated ambient temperature 287
  Dopamine
    dependance in hypocalcemic patients 463
  Epinephrine
    cardiac asthma: deleterious effects of 466
  Norepinephrine
    intragastric for control of upper gastro-intestinal hemorrhage 180
    oxygen consumption in septic shock 133
  plasma concentration during sedation in ventilated patients 171
Cerebral function monitor
  application and limitations in children 60
Chemotherapy
  acute myocardiopathy during 5-fluorouracil therapy 210
Cheynes-Stokes breathing
  cyclic haemodynamic and blood gases changes 208
Chronic obstructive pulmonary disease (COPD)
  effects of fenoterol during mechanical ventilation in 108
  effects of HFJV and CMV on intrinsic PEEP 81
  heat moisture exchangers and intrinsic PEEP 441
  intrinsic PEEP on static pressure-volume curves 233

Clinico-pathological conference
disseminated zygomycosis in systemic lupus erythematosus 201
Clonidine
use in management of autonomic dysfunction in tetanus 75
Coagulation
effect of enoximone after cardiac surgery 54
Coma
flumazemil in intoxicated patients 242
Continuous arteriovenous haemodialysis (CAVHD)
in emergency hepatic retransplantation 330
Continuous arteriovenous haemofiltration (CAVHF)
effects on hemodynamic and central blood volume in experimental endotoxic shock 494
in septic shock and multiple organ failure 489e
white clot syndrome 334
Continuous positive airway pressure (CPAP)
delivery using a Servo 900B ventilator 138c
Cytokines
inflammatory mediators in sepsis S187
mediators of multiple organ failure S192

D
Dantrolene
early treatment in mild tetanus 345c
Decision-making
European attitudes towards ethical problems 256
Diaphragm
paralysis, acute, after chest tube placement 138c
phrenic pacing for idiopathic alveolar hypoventilation 469
Diarrhoea
comparison of enteral feedings with and without fibers 252
Differential lung ventilation
and cardiac function in dogs 298
Drug intoxication
theophylline poisoning, 64 cases 394
flumazemil in comatose patients 242

E
Encephalitis
lethargica 338
Endotoxin
thromboxane and prostacyclin release after endotoxin in rats 436
Endotracheal suctioning
effects on arterial blood gases in children 95
Enoximone
pharmacokinetics in post-cardiac surgery patients 54
Enteral feeding
diarrhoea, comparison of feeds with and without fibers 252
Ethics
results of a European questionnaire in ICUs 256
European Society of Intensive Care Medicine
newsletter XVI 522
Exchange transfusion
for fulminant falciparum malaria 517
Extracorporeal circulation
for resuscitation after hypothermia 69, 342c
Extracorporeal CO_2-removal ($ECCO_2R$)
heparin-coated extracorporeal system 344c
Extravascular lung water (EVLW)
measurement by thermal dye dilution: dependance on cardiac output 115

F
Fibronectin
plasma concentration in blood products 41
Fluid filtration rate
in experimental lung edema, effect of graded PEEP 89
Forum
development of intensive care; a United Kingdom view 474e

G
Gastro-intestinal bleeding
control by intragastric norepinephrine and endoscopic alcoholization 180
rate in a general ICU population 44
Growth hormone
stimulation during severe head trauma 163
Guillain-Barré Syndrome
and high-frequency pulsation ventilation 277
during pregnancy 460

H
H_2-antagonists
gastric bacterial colonization and pneumonia 346c
Haematology
Is ICU care justified in patients with malignancies? 291
Haemodialysis
continuous arteriovenous, in hepatic retransplantation 330
pulmonary embolism in end-stage renal disease 405
Haemoglobin
red cell substitute and oxygen transport during hypovolemia 237
Halothane
respiratory and hemodynamic effects during status asthmaticus 104
Head trauma
free radical-induced lipoperoxidation in 444
increase of intracranial pressure following urapidil 272
secretion of HGH following 163
Heat-Moisture exchangers
effects on dynamic hyperinflation in COPD patients 441
Heparin
white-clot syndrome during CAVHF 324
High frequency jet ventilation (HFJV)
alveolar pressure during 33
and mechanical ventilation, intrinsic PEEP 73e
effects on intrinsic PEEP in COPD patients 81
in a patient with Guillain-Barré Syndrome 277
Hormones
arginine-vasopressin changes following ICU admission 323
catabolic, and nitrogen sparing at high ambient temperature 287
growth hormone stimulation in head trauma 163
Hypercapnia
low volume pressure-limited ventilation in ARDS 372
Hyponatraemia
stress of admission to ICU and Arginine-vasopressin 323
Hypothermia
resuscitation after extracorporeal circulation 69, 342c
survival after cardiac arrest and near-drowning 336
Hypovolemia
experimental, anemic, oxygen transport by a modified haemoglobin 237
Hypoxia
during endotracheal suctioning in children 95

I
ICU
Outcome
European attitudes towards ethical problems 256
in patients with haematologic malignancies 291
predictors of early deaths following discharge 125
prognosis of out-of-hospital cardiac arrest 378
Infection
in intensive care, introduction S181
epidemiology in ICU S197
antibiotic resistance: myths and facts S205
effects of antibiotic dosages on treatment of S229
pharmacokinetics of antibiotics and treatment of S235
difficult to treat S239
treatment of sepsis in the ICU S243
Interleukin-2
haemodynamic effects in patients with cancer 167

Intoxication
by *Cortinarius orellanus* 506
ingestion of formalin 212
Intraabdominal pressure
renal failure and increase of 285e, 328
Intracranial pressure
dihydroergotamine in raised 347c
during CPR 11r
increase following urapidil in head-trauma patients 272
monitoring of cerebral tissue pressure in 100 patients 184
thiopental and cat skeletal muscle vessels resistance 399
Intricsic PEEP
and heat-moisture exchangers in COPD patients 441
during mechanical ventilation and HFJV 73e
effects of HFJV 33
effects of HFJV in COPD patients 81
effects of inhaled fenoterol during mechanical ventilation in patients with COPD 108
on static pressure-volume curves 233
Intubation
orotracheal vs nasotracheal, and maxillary sinusitis 390
Ischemia
following radial artery cannulation in newborns 50

L
Lactate
CSF in adult meningitis 196
measurement; plasma or blood? 1e
plasma and whole blood levels during arterial occlusion 28
Left heart failure
cardiac asthma: deleterious effects of epinephrine 466
transient, following amniotic fluid embolization 269
Left ventricle
perforation by a temporary pacing lead 520c

M
Magnesium
sulfate and clonidine for autonomic dysfunction in tetanus 75
Malaria
fulminant *Plasmodium falciparum* 517
Malignant hyperthermia
lethal case of neuroleptic malignant syndrome 267
Mechanical ventilation (MV)
cardiac output measurements with a modified Fick method compared with thermodilution 248
controlled, and HFJV, effects on intrinsic PEEP 81
effects of heat-moisture exchangers on dynamic hyperinflation 441
hypophosphatemia-induced seizures in 135
in ARDS
management of ARDS 219r
permissive hypercapnia and pressure limited ventilation 372
in COPD
patients, effects of inhaled fenoterol on respiratory mechanics 108
intrinsic PEEP on static pressure-volume curves 233
measurement of elastance of respiratory system 189
measuring the work of breathing during 418r
selective PEEP and cardiac function in dogs 298
strategy for measurement of cardiac output during 422
Meningitis
CSF lactate in adults 196
Meningococcemia
acute deficiencies of protein C and S and treatment with antithrombin III 121
Metabolic rate
ambient temperature and post-operative catabolism 283e
elevated temperature and nitrogen sparing, following surgery 287
Minitracheostomy
intrapleural placement 343c
Multiple organ failure
a role for plasma exchange? 100
hemodynamic aspects of S165
mediators of S192
predictors of early deaths following ICU discharge 125
septic, treatment with CAVH 489e
Myocardial blood flow
during CPR 11r
Myocardiopathy
acute, during 5-fluorouracil therapy 210
coronary embolism causing myocardial infarction 215

N
Naloxone
induced laryngospasm, and pulmonary edema 340
Near-drowning
survival after cardiac arrest 336
Neuroleptic malignant syndrome
a lethal case 267
Nitrogen balance
catabolic hormones in patients nursed at elevated ambient temperature 287
Nococomial infections
Bacteremia
from pressure transducers in the ICU 511
concept of SDD S212
effects of SDD on infection and colonization S224
epidemology in ICUs S197
infection vs. colonization S201
intestinal decontamination in a polyvalent ICU 307
maxillary sinusitis; orotracheal vs nasotracheal intubation 390
Notes from Nashville
Hobglobins 411

O
Obituary
Sir Robert Macintosh and intensive care 472c
Opiates
rhabdomyolysis after heroin sniffing 410c
Organ transplantation
CAVHD during hepatic retransplantation 330
heart-lung, in children 426
Oximetry
during inter-hospital transport 317
